

**If the topics of natural products chemistry and chemical ecology interest you, you can find some interesting reading in the following references:**

“Chocolate: A Marvelous Natural Product of Chemistry”, J. Chem. Ed., vol 81, p 1131 (2004).

"Rediscovering Natural Products", Chemical and Engineering News (C&EN), Oct 13, 2003, pp. 77-107.

"Thieves, Deceivers and Killers, Tales of Chemistry in Nature", by William Agosta, Princeton University Press, 2001 (ISBN 0-691-00488-9)

"Pharmaceuticals from Plants", Journal of Chemical Education (JCE), vol 78, p. 175 (2001).

"Alkaloids", JCE, vol 77, p. 993 (2000).

"Exploring the Ocean - Stating the Case for Chemistry", JCE, vol 76, p. 1075 (1999).

"Art and Science of Organic Natural Products Synthesis", JCE, vol 75, p. 1225 (1998).
