Education

2002 Ph.D. in Chemical and Material Physics, University of California at Irvine
2000 M.S. in Chemistry, University of California at Irvine
1998 B.Sc. in Chemistry, University of Science & Technology of China

Academic Appointments

2017 – Professor, Departments of Chemistry and Biochemistry & Molecular Biology,
University of Massachusetts, Amherst
2007 – 16 Assistant, Associate and Full Professor, Department of Biochemistry and Molecular Biophysics,
Kansas State University
2002 – 07 Research Associate, Department of Molecular Biology, the Scripps Research Institute

Research Interests

Computational biochemistry and biophysics: implicit solvent protein force fields; coarse-grained protein models; enhanced sampling methods; protein folding; intrinsically disordered proteins; protein self-assembly and aggregation; synthetic ion channels; nanopore tweezer; BK channels; TMEM16 channels and lipid scramblases;

NMR spectroscopy: structure determination and refinement; NMR relaxation analysis and protein dynamics; structural interpretation of disordered protein states; high-resolution spectral analysis;

Teaching Experience

At UMass: CHEM 627: Biomolecular Structures; CHEM 585: Advanced Physical Chemistry; CHEM 475: Physical Chemistry; CHEM 891G: Graduate Core I;

At KSU: BIOCH 110: Biochemistry and Society; BIOCH 265: Introduction to Organic & Biochemistry; BIOCH 590: Physical Studies of Biomacromolecules; BIOCH 755: Biochemistry I; BIOCH 765: Biochemistry II; BIOCH 775: Molecular Biophysics; BIOCH 806: Graduate Student Seminars; BIOCH 915: Biomolecular Modeling

Mentoring Experience

Fellows/Visitors/Postdocs: Zhiguang Jia (2014-18; Senior Research Fellow, 19-), Xiaorong Liu (2019-20, Postdoc, U. of Michigan), Azar Farjamnia (2018; Industry), Mara Chiricotto (2017-18; Postdoc, UK), Kuohao Lee (2014-18; Staff Scientist at NIH), Charles English (2017-18; Postdoc w/ Gierasch; Data Scientist in industry), Weihong Zhang (2015-16, Entrepreneur), Debabani Ganguly (2007-13; Assistant Professor, Bengal Engineering and Science University, India), Jian Gao (2009-12; Professor, Qinzhou University, China), Timothy H. Click (2010-11; Visiting Faculty, Tabor College), Ahlam Al-Rawi (2007-09, Instructor at U of Central Florida)

Graduate Students: Samatha Schultz (2022-; MCB), Jian Huang (2020-, PhD), Yumeng Zhang (2019-, PhD), Erik Nordquist (2018-, PhD), Xiping Gong (2018-, PhD), Qianlan Jia (2019-21; UMass CIS master); Mahdieh Yazdani (2017-20, PhD; Senior Scientist at Merck), Xiaorong Liu (2014-19, PhD; Postdoc at UMich), Alex Beugelsdijk (2012-14, Master; medical doctor), Weihong Zhang (2009-14, PhD; Entrepreneur), Chester D. McDowell (2009-12, Master; joint with PE Smith; Veterinary Doctor), Praveen K. Lakkimsetti (2010 Summer Intern; Master in CIS; industry)

Undergraduate Students: Anik Dey (2022-, Amherst College), Jack Madden (2022-, CS/Pure Math), Ryan Pham (2021-22; Chemistry), Samatha Schultz (2021-22; BMB), Thomas Scudder (2021; BMB), Callie Jillson (2019-20, Chemistry), Minh Ho (2018-19, BMB), Justin Camphell (2017-18; Chemistry/Physics), Katrina Nguyen (2017-18; Chemistry), Samantha Gameros (Summer 2015, Biochemistry), Arianna Vessal (Summer 2014; Virginia Tech), Michael Mohan (2013-2015, Biochemistry), Steven Stimac (Spring 2014, Biochemistry), Tyler Dubek (Spring 2010, Biochemistry), Melissa Veldman (2009; Biochemistry), Miguel Aldrete (2008-09, *Bridges/DSP* scholar), Asma Al-Rawi (2007-08, physics)

Service Activities

Editorial Boards: Biophysical Journal (Editorial Board Member; 2020-); Frontiers in Molecular Neurosciences (Frontiers, Review Editor, 2018-19; Associate Editor, 2019-), Journal of Molecular Biology (Elsevier, Special Issue Guest Editor, 2017-18), Scientific Reports (Nature Publishing Group, 2011-)

Last updated: 6/1/2022

Membership on Panels/Study Sections: NSF CTMC Biomolecular Simulations (2015, 2017, 2022), NSF CNS MRI Panel (2022); National Academy of Sciences, Committee on Proposal Evaluation for Allocation of Supercomputing Time for the Study of Molecular Dynamics (2015, 2017, 2022), NIH NIDA Board of Scientific Counselors (Ad Hoc member, 2020), NIH BCMB P01 Special Review Panel (2015), NIH Biophysics of Neural Systems (BPNS) Study Section (2013; Ad hoc), NSF Panel on Research Infrastructure for Biological Research and Resources (2009)

Ad hoc Reviewer for Grant Proposals: Alberta Alzheimer's Research Program (AARP) (Canada), Austrian Science Fund (Austria), Biotechnology and Biological Sciences Research Council (UK), Czech Science Foundation, Foundation for Polish Science (Poland), French National Research Agency (ANR), Indo-US Science & Technology Forum, Smithsonian Institution (US), National Science Foundation (US) Netherlands Organisation for Scientific Research (NWO), Research Corporation for Science Advancement (RCSA), Worldwide Cancer Research

Service on Regional/National Committees: Organizing Committee, Molecular Biophysics Meeting in Northeast (2019); Organizing Committee, HPC Day (Northeastern, 2019); Council Member, Intrinsically Disordered Proteins Subgroup, Biophysical Society (2014-17); Secretary/Treasurer, Intrinsically Disordered Proteins Subgroup, Biophysical Society (2011-12)

Reviewer for Manuscripts: ~40 journals in the general areas of chemistry, biophysics and biochemistry

Honors and Awards

2022	CNS Outstanding Award in Research (Senior), UMass - Amherst
2011	ACS HP Outstanding Junior Faculty Award
2010	K-INBRE Faculty Scholar Award
2010	NSF CAREER Award
2009	K-State Wakonse Fellow
2008, 10, 14	Innovative Research Awards, Johnson Center for Basic Cancer Research
2007	Faculty Development Award, KSU NIH-COBRE on Epithelial Function

As a Postdoctoral Fellow and Student:

2002 – 05	Burroughs Wellcome Fund Postdoctoral Fellowship/La Jolla Interfaces in Sciences
2002	E. K. Lee Award, University of California at Irvine
2002	Regents' Dissertation Fellowship, University of California at Irvine
2001	Physical Sciences Faculty Endowed Fellowship, University of California at Irvine
1998	Lian Xiang Scholarship (联想奖学金), University of Science & Technology of China
1993	Xu A'Qiong Scholarship (许阿琼奖学金), Putian, P. R. China

Research Support

01/01/22 – 1/01/27, NIH R35 GM144045 (PI: Chen), “Disordered Proteins and Dynamic Interactions in Biology and Diseases”, \$1,899,000 (total cost)

06/01/21 – 5/31/26, NIH R01 AI156187 (PI: Min Chen), “Probing Functional States and Inhibition of Flaviviral Proteases Using Nanopore Tweezers”, \$2,190,088 (total cost) (Role: Co-I with ~25% budget)

10/01/19 – 09/30/22, NSF CNS 1919334 (PI: Chen), “MRI: Acquisition of a GPU Computing Cluster for UMass Institute of Applied Life Sciences”, \$415,000 (total/direct cost) (UMass cost sharing: \$177,857) (co-PIs: Bai, Colon, Liang and Moore)

07/01/18 – 6/30/23, NSF MCB 1817332 (PI: Chen), “Accelerating conformational transitions for binding flexible proteins”, \$600,000 (total cost) (NCE)

Previous supports: ~\$9.1M since 2007 (both as PI and co-PI) (\$3.6M to the Chen lab)

Peer-Reviewed Publications: 89 journal articles published or in press; *H*-index = 35 (Google Scholar)
