1. Register using your UMass email

2. Get the email from PerkinElmer (publisher of ChemDraw) for setting your password.

3. Login and this brings you to the Download Center. Click on ChemDraw Prime (middle of screen).

4. Under the 'File Name' click the blue link that corresponds to the 'ChemDraw Prime - WIN' or ChemDraw Prime- MAC'.

- The file names are 'cos19.1.exe' for the Windows version or 'cd191.dmg' for Mac,

5. Locate where you downloaded the file. Click on it, then let the file 'Extract.'

6. Start the install. ChemDraw may give a popup a window asking for the activation code. To get the code . . .

- Go back to your web browser and click on 'order history' at the left navigation bar under "Software & Services."

- On the page that follows, click the blue link under the column heading 'Order Number" that corresponds to the most recent 'Order Date.'

- The Order Number should be 'ORD29626SL'

7. On the next page look for the activation code, all the way to the right in the table. Highlight the code and copy it.

8. Go back to the 'activation window' that ChemDraw popped up right after you went to install.

9. Paste the code, click 'activate'

10. Scroll down to "read" the license agreement.

11. Accept the terms

12. Leave the next radio button as default.

13. Leave all check boxes that are marked, marked. Click next

14. Uncheck Python, if present, then click next

15. Click install on the next window.

16. Let it do its thing

17. Enjoy using the software
